About This Software

Live3D is a program enabling anyone with a webcam to digitally embody awesome characters. It is meant to be an open creation platform so everybody can make their own characters, backgrounds or props and import them into Live3D.

Key Features:

- Real time face tracking with webcam.
- Real time expression animation re-targeting for the tracked data, applying on a user selected 3D model.
- Customizable expression. You can make your own expression with all BlendShape channels of model.
- Dozens of preset body animations that you can use.
- Several preset 3D scenes to change.
- Several objects(Flower, Sword, etc.) which can be held by avatar that you can use.
- All customized expressions, animations, objects can be controlled by keyboard shortcut.
- Advanced face tracking supported with Apple iPhone X or equivalent with FaceID supported.

-
- Full body mo-cap supported with hardware device: Perception Neuron by Noitom.

We believe that Live3D will entertain many gamers, modelling and animation artists, members of various fandoms, streamers, web casters, YouTubers and their audiences.
